

NEW WAVE OPTIC WALL OUTDOOR

Brilliant facade illumination

DESIGN  US

LET US GO OUTSIDE

The iconic New Wave Optic Wall lamp is made in an outdoor version too. The handblown wavy glass will work its wonders by creating an illuminating experience on any outdoor wall.

The stylish and characteristic design makes this an outdoor lamp that will last for many years. The lamp is also suitable for bathroom use.

Collection Overview

PRODUCT FACTS

Description

The New Wave Optic Wall Outdoor lamp is designed with a mouth blown wavy glass with a coated aluminium front. It is designed to fit a variation of different facades and constellations and to take outdoor lighting to the next level.

Designer / Year Of Design

Design by Us / 2023

Material

Mouth blown clear glass and black coated aluminium.

Construction

The lamp comes with a base which is easily mounted on a wall surface on top of an outlet. We recommend to hardwire this lamp, which is why this lamp comes with no cord. The glass with the electric parts can then be connected and twisted in place on the base. A small screw underneath will secure that the lamp stays in place and is harder to steal.

Maintenance

Use a dry cloth to dust of the lamp. For further cleaning use a soft non-abrasive cloth with warm water - wipe with a clean soft lintfree cloth.

Voltage

220 - 240V

Frequency

50/60Hz

Cord

We highly recommend to hardwire this lamp. There is no place for the cord in the base, so the cord should be mounted behind the base, with the help of washers.

Light source:

Integrated LED lightsource

Power: 8W LED SMD

CCT: 2700K

Lumen: 600 lm

CRI: 90+

Classification

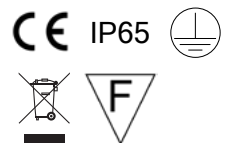

Class I

Ip rating

IP65

Corrosion

C4-High - from 100 meters from the sea
